GRAND SLAM BUNDLES

THE RIGHT SIZE FOR YOUR COLOCATION NEEDS

Need to add a new location or move to a highly redundant, cloud-enabled colocation solution?

Not only does Evoque provide easy colocation options, but our cabinet and cage customers receive 15-25% discounts and waived NRCs/set up fees on Blended IP. This provides reliable low latency internet connectivity.

Standard Cabinet & Cages

Simplify your deployment with fixed power. Each rack or cabinet comes with 4kW of power utilization included, with the ability to expand. Standard 45U high by 40" deep racks (cabinets 42" with lockable doors) support servers and appliances of all sizes.

Blended IP - Internet connectivity

Get 15-25% off the benefits of utilizing multiple ISPs, such as lower latency and improved resilience, with the ease of connecting to a single ISP through a simple Layer-2 interface. Allowable bandwidth bursting includes up to 5x commit for surges in demand.

Interested in adding Megaport?
Ask about our waived install promo for port and cross connect

Customers can also receive one of these **2-hour complimentary workshops** from Evoque's Cloud Experts at Foghorn:

- Cost optimization for hybrid deployments
- DevSecOps best practices
- Application-First Hybrid Infrastructure Planning

24-Month Pricing:

Single cabinet bundle starting at \$999 MRC, up to 4 additional cabinets at \$749 MRC each, excludes Boston (Watertown) and Los Angeles (Irvine).

Boston & Irvine Pricing:

36-Months: single cabinet bundle starting at \$1,199 MRC, up to 4 additional cabinets at \$999 MRC each.

24-months: single cabinet bundle starting at \$1,299 MRC, up to 4 additional cabinets at \$1,099 MRC each.
