Internet Connectivity Up to 25% OFF and No Setup Fees

Fast reliable Internet connectivity is critical to business, so why make do with a single internet provider when you can use a blend of multiple ISPs.

Gain simplicity of connecting to a single ISP with the benefit of blending multiple ISPs for resilience and minimized latency. Evoque manages the routing complexity, providing you a simple Layer-2 interface.

BLENDING IP BENEFITS INCLUDE:

- > Up to 10Gbps throughput supported
- > Single or dual homed ports
- > Fixed or Burstable bandwidth configurations available
- > Dedicated port for Internet traffic
- > Low latency
- > Dual-router and routes for resilience
- > Automatic Shortest path routing
- > Single invoice
- > Simple layer-2 interface
- > BGP routing supported
- > Complementary /28 IPv4 or /48 IPv6 subnet
- > Includes Copper or Fiber cross connect
- > 1G and 10G physical ports

No setup fees regardless of term on Blended IP agreement, and up to 25% OFF

12 Month Term

- No Setup fee

24 Month Term

- No Setup fee
- 15% monthly discount

36 Month Term

- No Setup fee
- 25% monthly discount

Evoque Blended IP includes the costs of Evoque cross connects.

Discount does not apply to burst overage charges or IP addresses
