Megaport

Waived Setup on Port Configurations

Need to connect to the public cloud, or establish high-speed connectivity between data centers?

Megaport has a solution!

› High speed Virtual Cross Connects (VXC)

› Dynamically scale your bandwidth on demand

› Multiple connections segmented to a single port

› Up to 100G connectivity (select locations)

› Direct access to multiple public clouds

› Easy to manage online portal

› Billed on your Evoque invoice

SOLUTION BENFITS

› 1G, 10G or 100G physical ports (100G where available)

› Diverse/Dual (where available) or Single Port configuration

› Waived Setup on Single Mode Fiber Cross Connects required to connect to Megaport (setup will be waived on both cross connects if diverse/dual ports ordered)

› Upgrade Port size at any time during the contract

Eligibility:

New customers or existing customers. Promotion is only available in supported locations Minimum 12 month term purchased through Evoque. Discount does not apply to monthly recurring charges or Megaport services themselves
